The Look Ahead feature shows how projected courses will apply toward the student’s degree/major, especially useful prior to and during registration. To access the Look Ahead feature, select Look Ahead from the options list on the left.

The Look Ahead course entry page:
Enter the Subject and Number of the course being considered and click **Add Course**. The course added appears in the box to the right -- “Courses you are considering.” To remove a course from the list, highlight the course and click **Remove Course**. Once all the courses are entered, click the **Process New** bar to generate a “Look Ahead” Academic Evaluation.

The Look Ahead Academic Evaluation looks like a regular audit except that you can view the list of “Look Ahead Courses Used” in the dropdown list on the left above the Student Information Block, and the header of the Student Information Block is labeled “Look Ahead Audit.”
As you scroll through the Academic Evaluation, the “Look Ahead” courses are highlighted in Blue and are listed as “Planned Term.”
